Alaska, Colorado, and Utah Regulatory Programs and Abandoned Mine Land Reclamation (AMLR) Plans

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule; technical amendment.

SUMMARY: OSM is making technical amendments to the regulations in programs for the conduct of surface mining operations within each State. Owing to an agency reorganization resulting in a change of the offices responsible for processing regulatory program and AMLR plan amendments for Alaska, Colorado, and Utah, OSM is changing the addresses for the locations of publicly available copies of the Alaska, Colorado, and Utah regulatory programs and AMLR plans. Also, OSM is creating a section for Colorado AMLR plan amendment approvals to promote consistency with the codification that OSM has used for other States.

EFFECTIVE DATE: October 25, 1995.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with 30 CFR Parts 730 through 732 and 884, OSM processes

regulatory programs and AMLR plans, and amendments to these programs and plans, which are submitted by the States for OSM review and approval.

OSM has reorganized and changed the offices responsible for processing regulatory program and AMLR plan amendments for Alaska, Colorado, and Utah. Previously, the Casper (Wyoming) Field Office processed Alaska amendments and housed the administrative record for them, and the Albuquerque (New Mexico) Field Office processed Colorado and Utah amendments and housed the administrative records for them. Under OSM's reorganized structure, the Western Regional Coordinating Center, Denver (Colorado) Field Division now processes the amendments for Alaska, Colorado, and Utah, and the Western Regional Coordinating Center, Technical Library houses the administrative records for these State regulatory programs and AMLR plans. Therefore, OSM is changing the addresses at 30 CFR 902.10, 902.20, 906.10, 906.20, 944.10, and 944.20 to indicate that the Alaska, Colorado, and Utah regulatory programs and AMLR plans are available for public review in the Technical Library at the Western Regional Coordinating Center.

OSM is also taking this opportunity to create 30 CFR 906.25, Approval of Amendments to the Colorado Abandoned Mine Land Reclamation Plan. Currently, 30 CFR 906.20 includes both information on OSM's original approval of the Colorado AMLR plan and information on an amendment to the plan that OSM subsequently approved. By removing the information on the amendment from 30 CFR 906.20 and placing it in newly-created 30 CFR 906.25, OSM is being consistent with the codification it has used for other State plans and plan amendments.

II. Procedural Matters

1. Administrative Procedure Act

The minor revisions contained in this rulemaking are technical in nature. Accordingly, pursuant to 5 U.S.C. 553(b)(B), it has been determined that the notice and public comment procedures of the Administrative Procedure Act are unnecessary. For the same reason, it has been determined that, in accordance with 5 U.S.C. 553(d), there is good cause to make the rule effective on the date of publication in the Federal Register.

2. Executive Order 12866

This rule is exempted from review by the Office of Management and Budget

(OMB) under Executive Order 12866 (Regulatory Planning and Review).

3. Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that this rule meets the applicable standards of subsections (a) and (b) of that section. This rule (1) does not preempt any State, Tribal, or local laws or regulations; (2) has no retroactive effect; and (3) does not require administrative proceedings before parties may file suit in court challenging its provisions.

4. National Environmental Policy Act

This rule has been reviewed by OSM, and it has been determined to be categorically excluded from the National Environmental Policy Act (NEPA) process in accordance with the Departmental Manual (516 DM 2 appendix 1.10) and the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR 1507.3).

5. Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

6. Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).
