State Program Amendments

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) is amending its regulations by revising the information currently reported in the Code of Federal Regulations (CFR) regarding the OSM Director's approval of amendments to State regulatory programs and abandoned mine land reclamation plans (hereafter State program amendments). This information is being condensed to a three-column tabular presentation providing the dates when State program amendments were originally submitted to OSM, the dates the OSM Director's decision approving all or portions of these amendments were published in the Federal Register, and the State citations affected by the amendments. This rulemaking will reduce the number of unnecessary pages in the CFR and make it a more useful document. As always, people interested in getting copies of the full text of the amended State regulatory program or abandoned mine land reclamation plan can contact the State regulatory authority office or the OSM field office with oversight authority for that State.

EFFECTIVE DATE: April 4, 1997.

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Discussion of Final Rule and Responses to Comments
- III. Procedural Matters

I. Background

The OSM Director's approval or approval in part of State program amendments is published in the Federal Register and codified in the CFR. The regulatory text documenting such decisions usually contained topical headings describing the amendments in a variety of forms, the associated program citations, the dates the amendments were submitted to OSM, and the dates the amendments became effective. The proposed rules published on May 8 and May 28, 1996, (61 FR 20768 and 61 FR 26477, respectively), would have limited the regulatory text to a two-column tabular presentation of the dates that the State program amendments were submitted to OSM and the dates the amendments were published in the Federal Register after approval, or partial approval, by the OSM Director for 30 CFR parts 901, 902, 904, 906, 913, 914, 915, 916, 917, 918, 920, 925, 926, 931, 934, 935, 936, 938, 943, 944, 946, 948 and 950.

This final rulemaking adds a third column to each table providing the State program citations affected by each program amendment. Where no citation is available or appropriate, a brief description is provided.

II. Discussion of Final Rule and Responses to Comments

Three commenters responded to the proposed rules, a citizens group and two trade associations. While neither association opposed the proposed goal of making the CFR a more readable document, they however argued that the rule should not be construed as being responsive to the regulatory reform required by the President's Regulatory Reform Initiative. While the formatting and informational changes promulgated by this rule may not meet all of the objectives of the Initiative, OSM believes that these changes are well within the discretion exercised by the Secretary for the last 20 years as to the nature of information published in the Federal Register and codified in the CFR documenting approval or approval in part of State program amendments.

One of the associations referenced its comments submitted in opposition to another earlier OSM rulemaking which had proposed deleting the whole text of State-Federal Cooperative Agreements from the CFR. (April 4, 1996, 61 FR 15005). OSM considers such comments to be inapplicable to the instant rule which provides as high or higher a level of meaningful State program amendment information as that provided under the prior rules.

Both associations and the citizens group contended that the proposed two-column format would not be useful to people researching the status of amendments, and would reduce the information currently available to the public. One of the associations suggested as a solution that a third column be added which would list the State citations affected by each amendment. In this way, the commenter believed that OSM would achieve the reform efforts of the proposed tabular format while maintaining its usefulness to people researching the status of State program amendments.

OSM accepts this last suggestion. In the final rule a third column has been added to each table labeled "Citation/Description." This column provides State citations or a brief description of the topic being affected by the State program amendment.

With the addition of the third column, the only category of information included in the prior State program amendment rules which is not being carried forward into the current rulemaking is the topical headings attributed to amended State program provisions. It is noteworthy that many of the early State program amendment rules did not include this type of topical information.

While some parties may have found the topical headings of the prior rules a convenient place to have begun research of a particular State program amendment provision, the topical headings most often supplied little useful guidance as to the actual nature or purpose of the amended provision. This was because the majority of amendments affect only a small portion of their topical headings. For example, the Illinois State program amendment submitted to OSM on July 26, 1990, and which became effective on May 6, 1991, listed four paragraphs of § 1778.13 as being amended: § 1778.13 (b), (c)(5), (i), and (j), but attributed to each paragraph the broader section heading of "Permit Applications; Identification of Interests." If a person was interested in the current requirements for the submission of information under § 1778.13, that person would have no indication from the prior rules' topical headings that such requirements were amended at § 1778.13(j). Under the final rule, as under the prior rules, people interested in researching a particular

State program provision must continue to refer to an updated copy of that program to determine the precise language of the provision.

OSM anticipates that the public will find that elimination of the prior rules' topical headings allows for a more concise, readable format without a material lessening of the information needed for researching a particular program provision.

During the process of preparing the Citation/Description column, OSM found numerous instances where the State program citations listed in the CFR were either incomplete or incorrect. Pursuant to the discretion the Secretary has historically exercised as to the nature of State program amendment information published in the Federal Register and codified in the CFR, OSM has taken the opportunity in the final rule to correct all errors found and to include the complete State citations approved by the Director where possible.

III. Procedural Matters

Federal Paperwork Reduction Act

This rule does not contain collections of information which require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

Regulatory Flexibility Act

The Department of the Interior certifies that this revision would not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Executive Order 12866

This rule is not significant under Executive Order 12866 and does not require review by the Office of Management and Budget.

Executive Order 12988

The Department of the Interior has conducted the reviews required by

section 3 of Executive Order 12988 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15 and 732.17(h)(10), decisions on State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR parts 730, 731 and 732 have been met.

List of Subjects in 30 CFR Parts 901, 902, 904, 906, 913, 914, 915, 916, 917, 918, 920, 925, 926, 931, 934, 935, 936, 938, 943, 944, 946, 948 and 950

Intergovernmental relations, Surface mining, Underground mining.

Dated: February 20, 1997.
Kathrine L. Henry,
Acting Director.

For the reasons set out in the preamble, 30 CFR parts 901, 902, 904, 906, 913, 914, 915, 916, 917, 918, 920, 925, 926, 931, 934, 935, 936, 938, 943, 944, 946, 948 and 950 are amended as follows.
