Thank you for your purchase of RENPHO mini massage gun. The massage gun offers a powerful percussion massage. While enjoying muscle and body relief, you should use it with care and safety in mind. To ensure safety and avoid any property damage, please read this manual carefully and use as indicated. Non-compliance may cause serious injuries or death and/or severe property damage.

Important Safety Instructions

- This product is not intended for medical use. It is intended only to provide a luxurious massage.
- Any individual who may be pregnant or recently gave birth, has a heart condition or a pacemaker, suffers from diabetes or other sensory impairment, phlebitis and/or thrombosis, joint dysfunction, inflammation or injuries, weak bones, osteoporosis, a high fever, an abnormal or curved spine, is at an increased risk of developing blood clots, has pins/screws/artificial joints or other medical devices implanted in his/her body, is being treated for a medical condition or physical injury or is under a doctor's care should consult with a medical professional before using a massaging device designed for home use.
- **DO NOT** use the massage gun on:
 - Sensitive skin, swollen or inflamed areas, in the area of poor circulation, where skin eruptions are present, or in the area of unexplained abdominal pain.
 - Your head.
 - Varicose veins.
 - The throat area.

- Genital area (**DO NOT** use this for sexual purposes. This is a powerful massage gun and may cause severe bodily harm).
- An unconscious or sleeping person.
- **DO NOT** use this product for more than 30 minutes at a time.
- If you feel unwell or in any unusual discomfort, please stop using the product immediately.
- Extensive use could lead to the product's excessive heating and shorter product life.
- **DO NOT** use this product before bed. The massage gun has a stimulating effect and can delay sleep.
- Please keep the massage gun away from heat and avoid using it in places where the surrounding temperature is relatively hot.
- **DO NOT** use the massage gun with wet hands.
- **Never** cover the product when it is in operation.
- This unit should not be used by children or invalids without adult supervision.
- It is prohibited for non-professional personnel to repair the massage gun or replace parts.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- Children shall not play with the appliance.
- Cleaning and user maintenance shall not be made by children without supervision.

- The use of a third-party massage head may cause damage to the massage gun.
- Use heated surfaces carefully to avoid serious burns.
- **DO NOT** drop, apply excessive force or heavy weight over the product to avoid malfunction and/or damages.
- **DO NOT** keep product near a high magnetic field or where it can be affected by a magnetic field, for it can cause batteries to discharge.
- **WARNING Chemical Exposure:** If the battery pack is leaking, **DO NOT** allow the liquid to come in contact with skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice. Place the battery in a sealed plastic bag and dispose of safely according to local environmental regulation.
- **DO NOT** disassemble or drill into the product and/or batteries. **DO NOT** take apart, modify or change the parts. This may cause product malfunction, electric shock, or fire. And the product will no longer be covered under manufacturer warranty.
- **DO NOT** throw the battery into fire or heat it.
- The used battery should be placed in a sealed plastic bag and disposed of safely according to local environmental regulations.
- Battery charging time and usage time may decrease the more the battery is used.

Massage Gun

Note: Adapter is not included.

1.2 Battery Life

- This Massage gun has a built-in rechargeable battery. A full charge takes about 3 hours. Total battery life is up to 150 minutes after a full charge. Please fully charge it before first use.
- Battery life can vary by application and/or operating conditions. If the product is not in use for a long time, please keep it powered off and charge it once a month so that the battery will last longer.
- Please keep the massage gun away from heat and avoid using it in places where the surrounding temperature is relatively hot.

2. Preparation

- Please fully charge the massage gun for 3 hours before use.
- Select the appropriate massage head to connect with the host.

3. Operation Instruction

1. Connect the device with the massage head

Insert the massage head completely into the host when using, and plug out when stop using. Note: The installation of the U-shaped head should be positioned. When the buckle is inserted into the slot, it means the installation is in place. If the massage gun's head is not installed in place, there will be a risk of falling off while use.

2. Long press the  button on the panel for 2 seconds to power on and start the first speed, short press the  button on the panel, the speed will switch between 1-5 level. Long press the  button for 2 seconds to power it off.

*After 10 minutes of operation, the device automatically powers off.

3. Use the massage gun on any area of your body to relieve stiffness, soreness, and pain.

FCC Statement

This device complies with ICES-003 Rules and US Electronic Code of Federal Regulations 47 CFR FCC Part 15; Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15B of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help with the supplied fastener. DO NOT hang the unit by the power cord.
