

2023 Special Edition

UBCO

A twist on the classic 2X2 Adventure bike, the Special Edition has been designed to intertwine both outdoor and urban worlds, catering to the everyday adventurer.

30

Mph max speed

Perfect for city riding. 30mph lets you keep up with the traffic or zip between it. Change from eco to boost mode on the app when tackling steep hills.

75

Miles max range

Go near or far. With a max range of 75 miles you can go to work, run all the errands, and escape the city without having range anxiety.

330

Lbs max carry weight

The Special Edition can carry a total weight of 330lbs (including the rider).

Carry the groceries, gym gear, or laptop with ease.

6

Hours to full charge

Run an extension line to the bike or bring the battery indoors.

Our 10 Amp charger plugs straight to your wall socket and into the battery.

Now available in a limited edition green and electric orange color palette, the Special Edition bike is accessorized and ready-to-go.

Carefully crafted the Special Edition features new detachable carry-bags, revitalized brake system, and a reengineered seat.

30L REAR BAG

Our rear carry case is designed for versatile carrying — from small items to extra-large ones. Pack your gym gear, groceries, lunch or laptop.

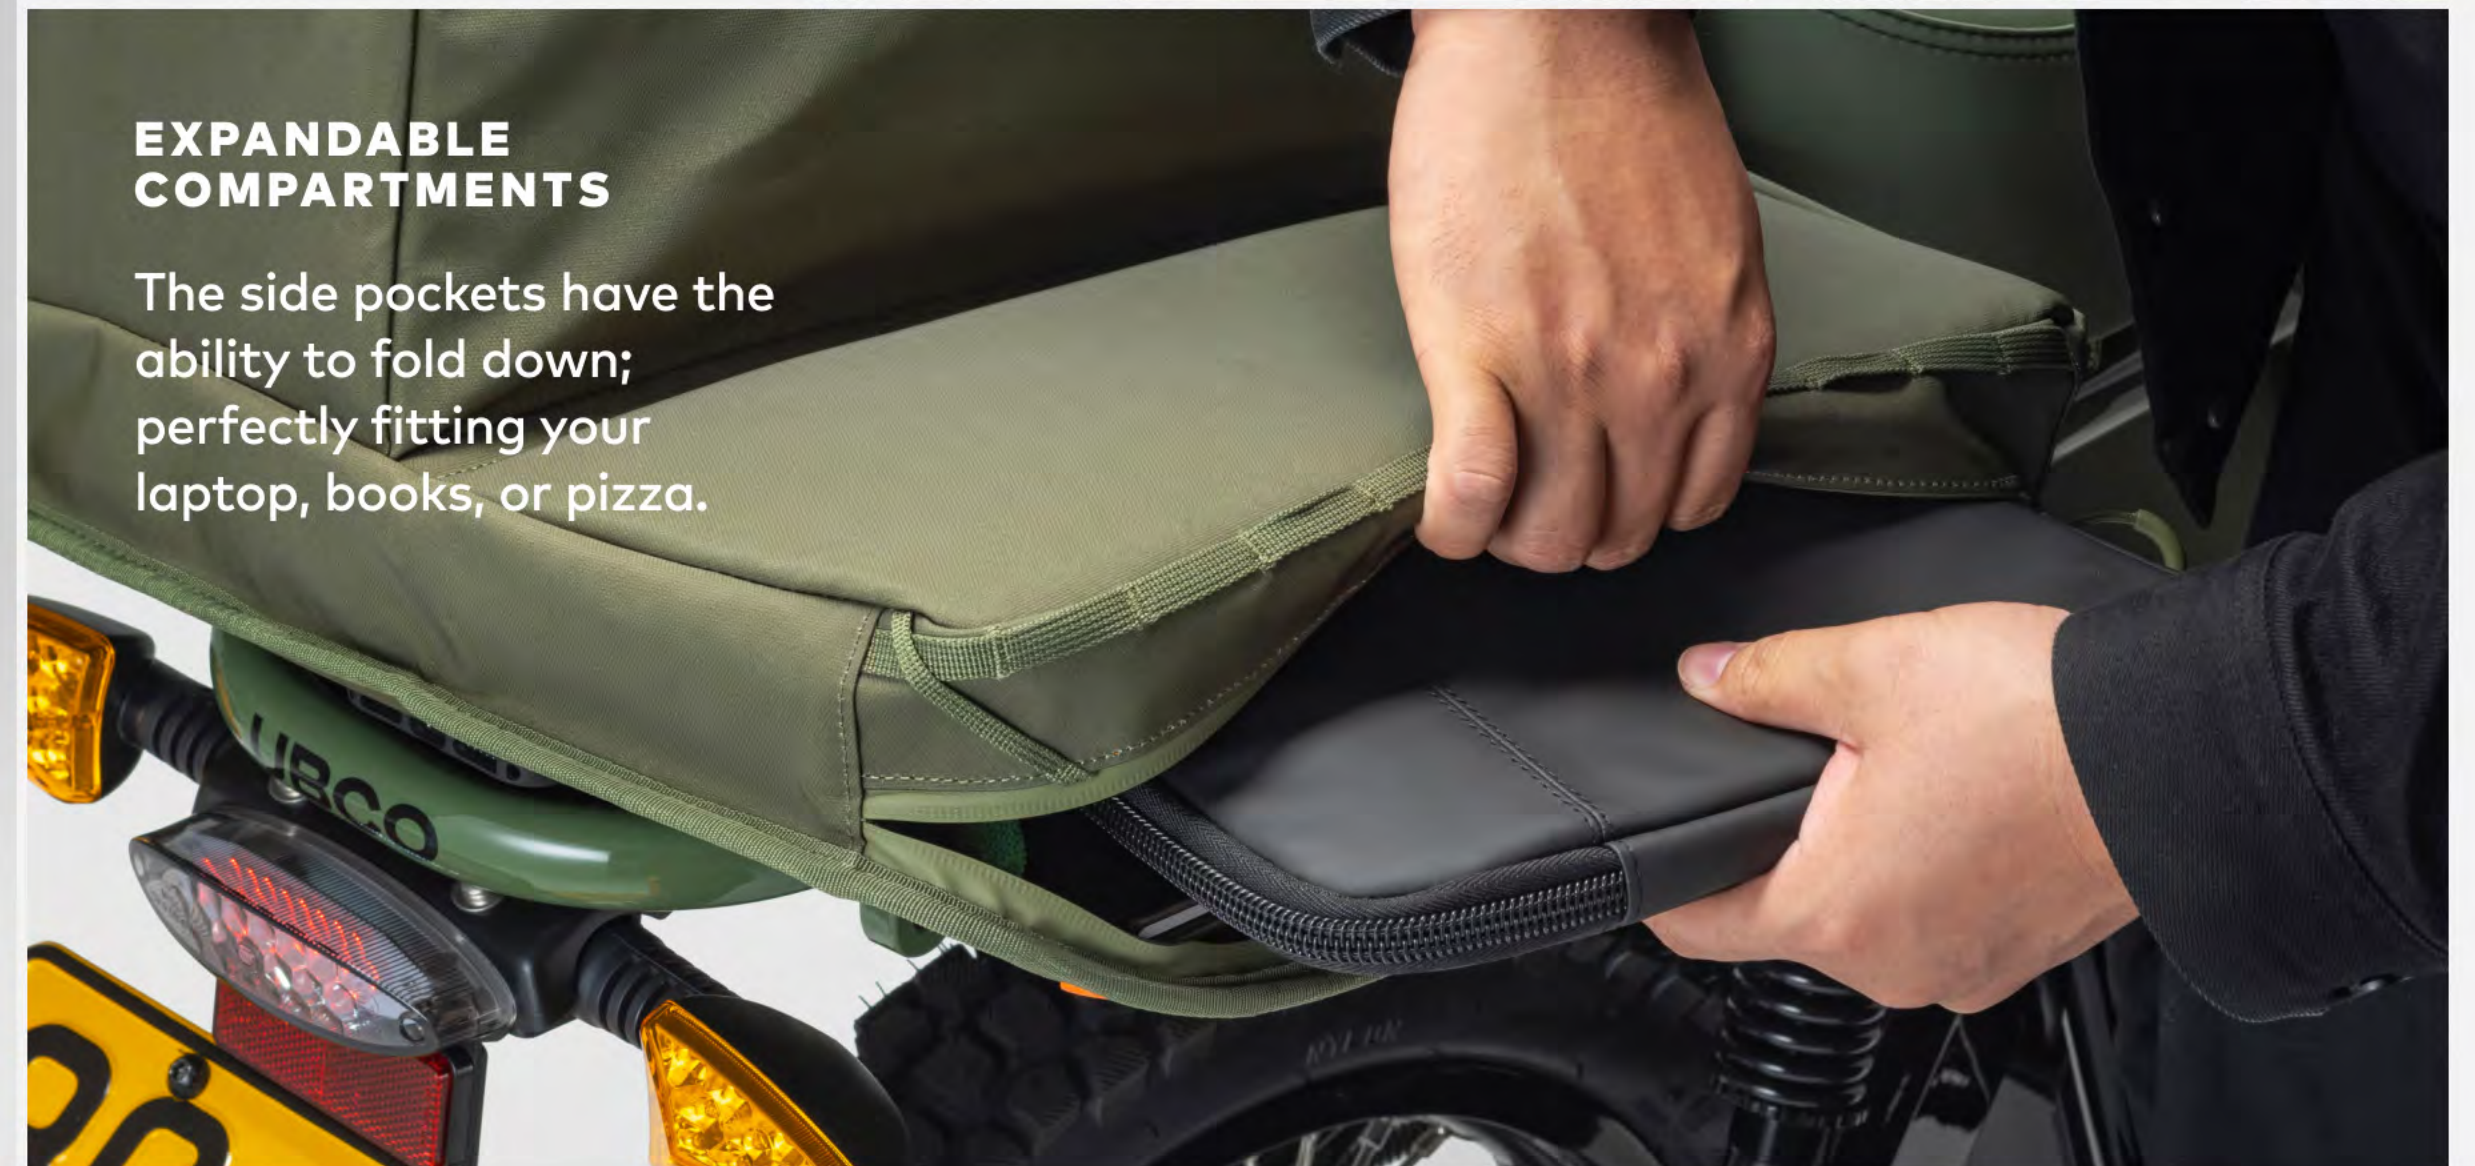

EASY ACCESS SIDE POCKETS

While folded, the expandable side pockets allow for easy storage of books, towels and other small items.

EXPANDABLE COMPARTMENTS

The side pockets have the ability to fold down; perfectly fitting your laptop, books, or pizza.

2X GIANT LOOP PRONGHORN STRAPS

These tough multi-purpose stretch straps provide full flexibility to attach and carry your picnic mat, or bed roll.

CENTER CARRY-ALL

Fitting snugly above the battery pack the carry-all provides some helpful storage for your bag, bottle or the morning supply run.

HARD WEARING AND WEATHER PROOF

Our rear carry case is designed for versatile carrying — from small items to extra-large ones. Pack your gym gear, groceries, lunch or laptop.

MOBILE COCKPIT

The Special Edition is fitted with a Peak Design phone mount featuring vibration isolation to protect your phone. The magnetic locking technology conveniently enables one-handed phone attachment and removal.

It also comes with a universal adaptor for your phone case.

Quick acceleration, no clutch and responsive handling—you'll be smiling from ear to ear sun up to sun down as you zip through city streets or dirt roads on this electric motorcycle.

TWIST-AND-GO

If you know how to ride a bicycle then you can ride an UBCO. Our twist-and-go throttle means you go from stand still to 30mph with a twist of the wrist. Electric motors in each wheel means no gears, no clutch and responsive acceleration.

TWIST-AND-GO

Enjoy the early morning or late night ride. Our LED headlights and near silent motors provides greater visibility and traffic awareness.

The low centre of gravity and improved braking system provides greater on-road responsiveness and control.

RIDE ON OR OFF ROAD

Feel like going off the beaten track? The Special Edition has an electric motor in each wheel giving you optimal control no matter the terrain.

Stay confident whether you're on wet roads or loose gravel.

**The 2X2 Special Edition is
the most fun ride you'll have.
It's a powerful and easy to
ride electric motorcycle.**

Built for anyone and everyone.

**Go Electric. Get Adventure.
Go UBCO.**
